# They Went From Pretty ... to Plastic!

These transformed stars have us asking: If it ain't broke, why fix it?

**BEFORE** **AFTER**

**JENNI "JWOWW" FARLEY, 30**  
The *Jersey Shore* alum's once-striking features have been overshadowed by suspected cheek and lip fillers, and Botox (which she admits to), says NYC-based plastic surgeon Dr. Matthew Schulman. "Hopefully it's all temporary!"

**BEFORE** **AFTER**

**AUBREY O'DAY, 32**  
"Sometimes I think I don't look like myself," acknowledges the reality star, who appears more fake than cute these days. While she credits makeup for the changes, Dr. Schulman blames fillers in her cheeks and lips. "Her lips are overinjected," he says. "She looked better before."

**BEFORE** **AFTER**

**FARRAH ABRAHAM, 25**  
The *Teen Mom* star says she "invested in myself" with a nose job, fillers and a chin implant (which she later removed) – but Dr. Schulman says it has made her look "significantly older" than her 25 years.

*She's a surgery superfan*

**BEFORE** **AFTER**

**KYLIE JENNER, 19**  
Why, Kylie, why? "She's a natural beauty, it's a shame she appears to be having so much work – like lip and facial fillers – so early in her life," says Michigan-based plastic surgeon Dr. Anthony Youn.

*Fillers are aging her*

**BEFORE** **AFTER**

**LIL' KIM, 41**  
"These changes are really unfortunate," says Beverly Hills-based surgeon Dr. David Amron, who believes the rapper's had an under-eye lift, brow lift, "a lot of fillers in her face" and a botched rhinoplasty. "Her nose looks like it's collapsing!" he says. "I definitely prefer how she looked in her 'before' photo."

**BEFORE** **AFTER**

**KIM KARDASHIAN, 35**  
"I don't like the changes," Dr. Amron says of Kim, who's only copped to Botox injections. The doc suspects cheek fillers and a nose job: "She's lost her soft, feminine features."
